

# Job Description For React Native Developer

Location : **Noida**

**Requirement** : 2 Candidates

**Education** : Any Graduate –  
Any Specialization

**Experience** : Min. 2 years

## Job Description

We are looking for a React Native developer interested in building performant mobile apps on both the iOS and Android platforms. You will be responsible for architecting and building these applications, as well as coordinating with the teams responsible for other layers of the product infrastructure. Building a product is a highly collaborative effort, and as such, a strong team player with a commitment to perfection is required.

## Responsibilities

- Work as part of a small team to build React Native iOS / Android applications for Semidot's clients.
- Architect, build and maintain excellent React Native applications with clean code.
- Implement pixel perfect UI's that match designs.
- Implement clean, modern, smooth animations and transitions that provide an excellent user experience.
- Integrate third-party API's.
- Write unit and integration tests.
- Release applications to the Apple and Google Play stores.
- Work with native modules when required.
- Work as part of a small team, which will include other React Native developers, a project manager, QA professional, and a designer.
- Complete two-week sprints and participate in sprint retrospectives and daily standups.
- Assist with building estimates.
- Work with modern tools including Jira, Slack, GitHub, Google Docs, etc.
- Follow Semidot's detailed development process

## Requirements

- **2-3 years** of professional experience working with React Native.
- Experience working with Swift, Objective C, and Java a plus but not required.
- Meaningful experience working on large, complex systems.
- Ability to take extreme ownership over your work. Every day is a challenge to ensure you are performing to the expectations you and your team have agreed upon, both in regard to estimates and to the general process.
- Ability to identify with the goals of Semidot clients and dedicate yourself to delivering on the commitments you and your team make to them.
- An understanding of React Native best practices and a commitment to following them.
- Ability to work through new and difficult React Native issues and contribute to libraries as needed.
- Ability to create and maintain continuous integration and delivery of React Native applications.
- A positive mindset and can-do attitude.
- Forensic attention to detail.

- English skills is a plus(ability to effectively communicate via written and spoken english).
- A passion for software development. It's not just your career, it's also your hobby. You're constantly striving to learn new things and improve. You follow industry news, regularly tinker with new technologies, and read books and blogs to keep your skills current.
- You work well within a team environment and enjoy working in the office with your colleagues.

## **Skills**

- Firm grasp of the JavaScript {{and TypeScript or ClojureScript}} language and its nuances, including ES6+ syntax
- Knowledge of {{functional or object-oriented}} programming
- Ability to write well-documented, clean Javascript code
- Rock solid at working with third-party dependencies and debugging dependency conflicts
- Familiarity with native build tools, like XCode, Gradle {{Android Studio, IntelliJ}}
- Understanding of REST APIs, the document request model, and offline storage
- Experience with automated testing suites, like {{Jest or Mocha}}
